Dear Mr. Booth,

I wanted to take a moment to thank you and your service crew that installed my gutters last week. I am so delighted with the results. As you know we had a big problem with the water splashing down on our heads as we walked into our patio and the water continued to splash onto our front door. It was a mess. I am glad to report that 2 days after my gutters were installed we had a rainstorm and my door is dry and we were able to walk in and out without water beating down on us. I am so happy.

Your crew was delightful that came out here. I was blown away at how efficient and quickly they worked together. They measured, constructed and installed my gutters right there on the spot. It was most enjoyable to watch.

I am also very please with the look of the gutters. They finished off the roofline perfectly. Again, I am so very happy with everything.

Thank you,

Yours truly,

Cathy Hamilton
